

4-Way Lock 603

Application

Installed inside wood or metal doors to provide 4-way multi-bolt locking.

Operation

- 360° key rotation for deadbolt action
- Additional travel for latch action
- Left- or right-hand application

Options

- Hardware colors: white, brown, shiny brass, nickel chrome, gold
- Fixed outside handle

Materials

Case and mechanism: steel
Bolts: steel (optional hardened)
Cylinder protector: hardened steel

Additional feature

Patented 18 mm Double D shaped bolts allow installation in narrow frames, and enable use of front plate (22 mm width) to fit regular steel door types.

Standards

- ISI technical specification 196
- EN12209
